ENGAGEMENT

Engaged employees have a sense of personal attachment to their work and organisation; they are motivated and able to give their best to help the organisation succeed.

The complete list of questions which are used to calculate the Engagement Index are listed in the All Questions pages.

RESPONSE RATE

Due to the size of the NSW public sector, even comparatively low levels of response to People Matter can be statistically representative and an accurate reflection of perceptions. Any parts of the sector where the response rate is too low for data to be fully reliable have been flagged in reports.

Some entities exceeded 100% where responses were greater than the employee headcount. This is thought to be primarily due to employees selecting the wrong work location in the survey.

QUESTION HEADLINES

HIGHEST AGREEMENT SCORING QUESTIONS

2016
AGREEMENT %

1h. I look for ways to perform my job more effectively	95%
8i. Diversity and inclusion in the workplace can contribute to better business outcomes	93%
2i. People in my workgroup treat customers/clients with respect	90%
2a. My workgroup strives to achieve customer/client satisfaction	89%
7c. My organisation strives to earn and sustain a high level of public trust	87%
7a. My organisation provides high quality services	87%
1a. I understand what is expected of me to do well in my role	87%
7b. My organisation strives to match services to customer/client needs	86%
1d. I feel I make a contribution to achieving the organisation's objectives	86%
2e. I receive help and support from other members of my workgroup	82%

LOWEST AGREEMENT SCORING QUESTIONS

2016
AGREEMENT %

7l. My organisation's processes for recruiting employees are efficient	39%
3j. I am satisfied with the opportunities available for career development in my organisation	39%
15. I believe action will be taken on the results from this survey by my organisation	42%
5n. My manager appropriately deals with employees who perform poorly	42%
9b. I have confidence in the ways my organisation resolves grievances	46%
7f. I feel that change is handled well in my organisation	46%
6h. I feel that senior managers listen to employees	50%
7m. Recruitment and promotion decisions in this organisation are generally fair	50%
6b. I feel that senior leaders effectively lead and manage change	51%
6d. Senior managers encourage innovation by employees	52%

YOUR PEOPLE MATTER QUESTION RESULTS AT A GLANCE

These are your highest and lowest scoring questions from the survey, based on respondents who have selected 'Strongly Agree' and 'Agree'.

ALMOST 1,400 EMPLOYEES ACROSS THE PREMIER AND CABINET CLUSTER TOOK THE OPPORTUNITY TO HAVE THEIR SAY IN PEOPLE MATTER

The People Matter employee survey was open to all employees in Premier and Cabinet between 2nd and 31st May 2016. Almost 1,400 employees took the opportunity to have their say, resulting in an 80% response rate. This level of response is sufficient for the analysis of data across Premier and Cabinet and all of its organisations to be robust and representative.

People Matter has demonstrated that levels of employee engagement in Premier and Cabinet remain strong at 70% and the cluster was the most engaged compared to all others in 2016. Across the cluster, Infrastructure NSW and Sydney Cricket and Sports Ground Trust returned the highest Engagement Index scores (88% and 75%) while the Natural Resources Commission was the least engaged (63%).

Employee engagement with organisations is lower than engagement with work. An observable finding across Premier and Cabinet and the sector is that employees are more positive towards their immediate working environment and team, with positivity declining when focus shifts to their manager, senior managers, and their organisation.

Analysis of People Matter has shown that providing support to optimise work outcomes, employees feeling able to suggest ideas to improve how things are done and believing that the organisation is making necessary improvements to meet future challenges are fundamental to engagement at Premier and Cabinet.

Communication is an enabler for high performance, and Premier and Cabinet scored higher than the sector overall for this question group. Perceptions of how immediate managers communicate were stronger than perceptions of senior management communication, a common finding across the sector.

Effective and visible leadership is essential for realising a high performance culture. The results for the high performance question group were slightly above the sector average at 72%. Within this group, all factors were above the sector average, particularly capability and collaboration.

The public sector values of integrity, trust, service and accountability guide the high standards required of all employees and organisations across the sector. Respondents across Premier and Cabinet demonstrate high agreement with all of the values, especially with aspects of service and trust.

The majority of respondents in Premier and Cabinet agreed that diversity and inclusion in the workplace can contribute to better business outcomes. The perceptions for some minority groups including those from non-English speaking backgrounds and LGBTI employees were broadly in line with sector averages while the perceptions of employees with a disability or a diagnosed mental health condition were consistently less positive across all areas, which is a trend replicated across the sector.

This report focuses on all the key questions groups in People Matter, comparing performance in Premier and Cabinet to the sector average and where possible, providing analysis to demonstrate the themes and areas which are most likely to influence improvements in engagement and other key performance indicators.

The initial overview sections are followed by summary results for all clusters and all agencies in this cluster. The Key Questions section contains cluster results for the individual questions and the aggregate scores for each question group. A profile of respondents and select demographic responses are near the end of the report.

EMPLOYEE ENGAGEMENT

ENGAGEMENT REMAINS HIGH

A complete list of the questions which are used to measure Employee Engagement are listed in the All Questions section.

EMPLOYEE ENGAGEMENT	PMES 2016 SECTOR SCORE	65%
	PMES 2014 SECTOR SCORE	65%
	PMES 2014 CLUSTER SCORE	71%

70%

KEY DRIVERS OF ENGAGEMENT

The following questions have been identified through an advanced statistical technique called **Key Driver Analysis** to be the questions with the strongest impact on Employee Engagement.

Focus on improving perceptions on these questions should see an corresponding **impact on the Engagement index**.

★	KEY DRIVERS OF ENGAGEMENT	% AGREEMENT	% SECTOR
1f.	I am provided with the support I need to optimise my contribution at work	63%	59%
1e.	I feel I am able to suggest ideas to improve our way of doing things	74%	69%
7e.	My organisation is making the necessary improvements to meet our future challenges	67%	62%
7d.	My organisation focuses on improving the work we do	80%	76%
3j.	I am satisfied with the opportunities available for career development in my organisation	39%	45%
7j.	My organisation is committed to developing its employees	55%	53%

EMPLOYEE ENGAGEMENT BY CLUSTER

Employee engagement is a long established and widely deployed business and organisational performance indicator. Definitions vary widely, however one of the most comprehensive studies into engagement by the Engage for Success Taskforce, commissioned in 2009 by the United Kingdom government, concluded that:

“Engaged employees have a sense of personal attachment to their work and organisation; they are motivated and able to give their best to help it succeed – and from that flows a series of tangible benefits for organisation and individual alike”

ENGAGEMENT IS HIGH AND ABOVE THE SECTOR AVERAGE AT CLUSTER LEVEL

The overall Engagement Index score for Premier and Cabinet in 2016 was 70%. This was five percentage points higher than the sector average and one percentage point lower than the 2014 cluster score. Infrastructure NSW and Sydney Cricket and Sports Ground Trust returned the highest Engagement Index scores (88% and 75% respectively). The Department score was 72%. The Natural Resources Commission was the least engaged organisation in the cluster (63%).

The majority of respondents indicated they feel proud to tell others where they work (80%) representing the strongest performing item within engagement, a trend also reflected in the wider context of the public sector. Inspiration and motivation returned comparatively lower levels of agreement (both 61%) and again, this is consistent with sector trends.

People Matter also examined the levels of engagement shown by respondents with their work, an area which tends to attract moderately higher scores than engagement with broader areas of an organisation. This follows a wider trend observed in People Matter where respondents tended to answer more positively when asked about something directly related to their immediate work or work group, with higher neutrality and negativity recorded when asked about aspects further from their immediate experience, such as their manager, senior managers or the organisation as a whole.

In particular, the vast majority of respondents (95%) agreed that they look for ways to do their job more effectively. This suggests respondents within this cluster are more engaged with their immediate role compared to their organisation as a whole.

Unlike typical trends seen in employment research where engagement declines with age, engagement within this cluster by age follows a U shape trend whereby engagement is high amongst younger employees, drops off within middle aged employees and then recovers again with older employees. Also running counter to common trends seen in research was the degree of engagement according to seniority. Scores were similar across the cluster regardless of the level of management whereas, typically, levels of engagement gradually decline from senior management downwards.

Also of note are the levels of engagement recorded for employees with longer tenure. A typical trend found in engagement research is that levels of engagement for new employees begin high, fall to their lowest after 2-5+ years and recover for very long servers of over 10+ years to higher than average levels. However, this 'U-shaped' pattern is not reflected in this cluster, nor is it reflected in the NSW public sector as a whole. Premier and Cabinet experience peaks in engagement levels amongst employees with less than 1 year service, between 2-5 years service and 20+ years service however there are also lows in levels of engagement after 1-2 years of service and between 5-10 years service.

The scale of the survey and the amount of data collected allows the robust use of statistical technique called Key Driver Analysis to explore items in the survey with the strongest association with the Engagement Index, thereby providing one way to understand what themes are most influencing levels of engagement.

The analysis revealed that workplace support and feeling able to suggest ideas to improve ways of doing things have a significant impact on levels of engagement in Premier and Cabinet. Other drivers of engagement are also related to continuous improvement and employee development.

SENIOR MANAGERS

RESULTS ARE ABOVE THE SECTOR AVERAGE

A complete list of the questions which are used to measure Senior Managers are listed in the All Questions section.

SENIOR MANAGERS 55%	PMES 2016 SECTOR SCORE	47%
	PMES 2016 CLUSTER HIGH	58%
	PMES 2016 CLUSTER LOW	38%

KEY INFLUENCERS

The following questions have been identified through a **statistical correlation analysis** as the questions with the strongest association with the Senior Managers.

Focus on improving perceptions on these questions should see a corresponding **influence on perceptions of the Senior Managers**.

★ KEY INFLUENCERS	% AGREEMENT	% SECTOR
7j. My organisation is committed to developing its employees	55%	53%
6i. Senior managers in my organisation genuinely support the career advancement of women	61%	54%
7e. My organisation is making the necessary improvements to meet our future challenges	67%	62%
7h. People in my organisation take responsibility for their own actions	56%	48%
7g. There is good co-operation between teams across our organisation	55%	48%
7d. My organisation focuses on improving the work we do	80%	76%

Results from People Matter demonstrate that overall perceptions of senior managers across Premier and Cabinet are above the sector average. The aggregate agreement score for this question group was 55%. Overall perceptions of senior managers were less positive than other areas measured in the survey for this cluster but this is a trend reflected across the sector, albeit with lower scores than Premier and Cabinet.

Perceptions of senior managers were notably strong within Infrastructure NSW (97%), followed by Department of Premier and Cabinet (64%) and Natural Resources Commission (60%). Organisations which had weaker perceptions of senior managers included Office of Sport and Destination NSW (43% and 45%).

Almost two thirds of respondents (65%) agreed that senior managers communicate the importance of customers in achieving business objectives, which reinforces the strong emphasis of customer and public service as a focus for this cluster. However, this is offset by lower levels of agreement on all other items, particularly with regards to how well senior managers handle change management (46% agreement) and how well they listen to employees (50% agreement).

Among job roles, employees working within policy had the strongest perceptions of senior managers (73%) followed by legal (62%), administrative support (61%) and program and project management support (61%). Service delivery involving direct contact with the general public had notably weaker perceptions with just over a third (36%) agreeing with this question set.

Agreement across all senior manager items declines with tenure. For items specifically relating to senior managers, managers of other managers held higher levels of agreement across these items when compared with managers and non-managers.

KEY INFLUENCERS

Statistical correlation analysis revealed that responses to survey questions regarding career development and whether an organisation is making improvements to meet future challenges strongly influenced the outcomes of senior manager question scores and therefore shows a strong association between these themes and perceptions of leadership.

RESULTS ARE ABOVE THE SECTOR AVERAGE

A complete list of the questions which are used to measure Communication are listed in the All Questions section.

COMMUNICATION 66%	PMES 2016 SECTOR SCORE	59%
	PMES 2016 CLUSTER HIGH	70%
	PMES 2016 CLUSTER LOW	51%

KEY INFLUENCERS

The following questions have been identified through a **statistical correlation analysis** as the questions with the strongest association with the Communication.

Focus on improving perceptions on these questions should see a corresponding **influence on perceptions of the Communication**.

★ KEY INFLUENCERS	% AGREEMENT	% SECTOR
5d. My manager listens to what I have to say	78%	73%
5j. I have confidence in the decisions my line manager makes	74%	67%
5h. My manager takes into account the differing needs and circumstances of employees when making decisions	72%	65%
5i. My manager would take appropriate action if decision-making processes were found to be biased	73%	64%
3f. I feel I can have open, honest conversations with my manager about the quality of work required	77%	71%
5k. My manager treats employees with dignity and respect	82%	76%

Empowering and connecting with employees through communication is vital to successful organisations. Across Premier and Cabinet, questions about communication averaged 66% agreement, seven percentage points higher than the sector average.

Across the cluster, Infrastructure NSW returned the strongest result for communication (97%). All other organisations remain in line with Premier and Cabinet averaged scores, with the exception of Office of Sport (61%) and Parliamentary Counsel's Office (49%).

Higher levels of agreement were returned on items relating to communication from immediate managers and supervisors. Overall, 76% felt able to speak up and share different views and 75% agreed their manager encourages and values employee input. Notably less agreed that senior managers listen to employees (50%) or that senior managers keep employees informed about what's going on (53%).

Agreement with communication questions was found to decline with tenure and age and differing perceptions about communication according to job role were also evident. Employees within policy and program and project management support held the strongest positive perceptions on communication (78% and 72% respectively). Conversely, employees within service delivery roles involving direct contact with the general public were notably less positive (57%).

KEY INFLUENCERS

Statistical correlation analysis revealed that responses to survey questions about wider perceptions of direct managers were influencing perceptions about communications within in Premier and Cabinet. Encouragingly, this cluster demonstrates favourable perceptions of communication and confidence in the decision making of direct managers.

RESULTS ARE ABOVE THE SECTOR AVERAGE

A complete list of the questions which are used to measure High Performance are listed in the All Questions section.

HIGH PERFORMANCE 72%	PMES 2016 SECTOR SCORE	68%
	PMES 2016 CLUSTER HIGH	73%
	PMES 2016 CLUSTER LOW	61%

KEY INFLUENCERS

The following questions have been identified through a **statistical correlation analysis** as the questions with the strongest association with the High Performance.

Focus on improving perceptions on these questions should see a corresponding **influence on perceptions of the High Performance**.

★ KEY INFLUENCERS	% AGREEMENT	% SECTOR
1f. I am provided with the support I need to optimise my contribution at work	63%	59%
7j. My organisation is committed to developing its employees	55%	53%
6h. I feel that senior managers listen to employees	50%	39%
6b. I feel that senior leaders effectively lead and manage change	51%	43%
6a. I believe senior managers provide clear direction for the future of the organisation	55%	47%
6c. I feel that senior managers model the values of my organisation	57%	48%

High Performance has been described as the consistent achievement of increased productivity through the setting of rigorous goals, targets and priorities, all of which are aligned across the organisation. Six separate factors and 21 questions were used to measure high performance in People Matter. The aggregate score for high performance was 72% within Premier and Cabinet. This was four points above the sector average. Across the cluster, perceptions of high performance were strong within Infrastructure NSW (91%) and all other organisations were in line with the average score, with the exception of Office of Sport (66%).

High Performance survey questions centred around six key themes: capability, efficiency, continuous improvement, innovation, collaboration and outcomes.

Capability questions aimed to assess perceptions about work skills and the aggregated score for the cluster was 72%, seven percentage points above the sector average. However, there was a lower level of agreement that the organisation selects capable people to do their job (66%).

Efficiency and effectiveness were evaluated by asking whether correct information and resources were in place to allow employees to deliver outcomes efficiently and by employees understanding what is expected of them. The aggregated agreement score for these questions was 75%, seven percentage points above the sector average.

Continuous Improvement and Innovation questions explored whether employees perceived their organisation to be future and improvement focused and encouraging of innovative ideas. These question groups scored 72% and 62% respectively, both marginally above the sector average.

Collaboration questions asked how well employees collaborate within and between teams as well as the promotion of external collaboration by senior managers. There was 65% agreement for this question group which was six points above the sector average. Collaboration within teams (80%) was notably stronger than perceptions of collaboration between teams (55%).

Outcomes questions looked at achievement of organisational objectives and business outcomes. Premier and Cabinet returned a result of 89% agreement which was four points above the sector average.

Perceptions about performance varied according to job role. Those who work in policy were 81% in agreement, followed by legal (77%) while employees in service delivery roles had a lower score (65%). All other job roles were in line with cluster averages. Managers of other managers had a high level of agreement (76%), compared to managers (75%) and non-managers (71%). This linear trend was also noted when analysing salary groups.

KEY INFLUENCERS

Analysis revealed that perceptions about workplace support, employee development and whether or not senior managers listen to employees strongly influenced perceptions about high performance. Indeed, four of the six top influencing questions were related to the perceived performance of senior managers and while all questions scored above sector average, they range between 50%-63% agreement and are not strongly positive scores.

PUBLIC SECTOR VALUES

RESULTS ARE ABOVE THE SECTOR AVERAGE

A complete list of the questions which are used to measure Public Sector Values are listed in the All Questions section.

PUBLIC SECTOR VALUES	PMES 2016 SECTOR SCORE	66%
	PMES 2016 CLUSTER HIGH	74%
	PMES 2016 CLUSTER LOW	59%

72%

KEY INFLUENCERS

The following questions have been identified through a **statistical correlation analysis** as the questions with the strongest association with the Public Sector Values.

Focus on improving perceptions on these questions should see a corresponding **influence on perceptions of the Public Sector Values**.

★ KEY INFLUENCERS	% AGREEMENT	% SECTOR
6b. I feel that senior leaders effectively lead and manage change	51%	43%
6e. Senior managers promote collaboration between my organisation and others we work with	61%	52%
7j. My organisation is committed to developing its employees	55%	53%
6d. Senior managers encourage innovation by employees	52%	49%
5j. I have confidence in the decisions my line manager makes	74%	67%
5f. My manager encourages and values employee input	75%	69%

PUBLIC SECTOR VALUES

The core values of Integrity, Trust, Service and Accountability were measured using 22 survey questions. Overall, Premier and Cabinet had an aggregate agreement score of 72% which is six points above the sector average. All individual values scores were also well above the sector average.

Within Premier and Cabinet, Infrastructure NSW returned the strongest averaged agreement score of 94%, followed by the Department of Premier and Cabinet with 77%. All other organisations were in line with the average score, with the exception of Office of Sport (66%).

The score for Integrity was drawn down by low agreement with the question about senior managers modelling the behaviours of the organisation. One fifth (20%) responded negatively and a further 23% were unsure. Similarly, the overall score for accountability was negatively impacted by scores about the perception that senior managers provide clear direction for the future where almost one quarter of all respondents (24%) disagreed and a further 21% were unsure.

Generally speaking, younger employees were typically more positive towards the public sector values overall. Respondents who have been diagnosed with a mental health condition had a more negative view. This mirrors a trend that was observed in the wider context of the public sector overall.

Managers have a slightly more positive view of how public sector values are applied (76%) when compared with non-managers (71%). This trend was also evident amongst high earners with respondents in the \$170,000+ salary band in higher agreement with the values questions overall.

KEY INFLUENCERS

Analysis of People Matter has shown that the effectiveness of senior leaders in managing change and encouraging collaboration and whether or not an organisation shows commitment to developing employees strongly impact on perceptions of public sector values across Premier and Cabinet.

DIVERSITY & INCLUSION

RESULTS ARE ABOVE THE SECTOR AVERAGE

A complete list of the questions which are used to measure Diversity & Inclusion are listed in the All Questions section.

DIVERSITY & INCLUSION	PMES 2016 SECTOR SCORE	67%
	PMES 2016 CLUSTER HIGH	75%
	PMES 2016 CLUSTER LOW	61%

73%

KEY INFLUENCERS

The following questions have been identified through a **statistical correlation analysis** as the questions with the strongest association with the Diversity & Inclusion.

Focus on improving perceptions on these questions should see a corresponding **influence on perceptions of the Diversity & Inclusion**.

★	KEY INFLUENCERS	% AGREEMENT	% SECTOR
5e.	My manager communicates effectively with me	73%	69%
5g.	My manager involves my workgroup in decisions about our work	69%	64%
5j.	I have confidence in the decisions my line manager makes	74%	67%
3f.	I feel I can have open, honest conversations with my manager about the quality of work required	77%	71%
5k.	My manager treats employees with dignity and respect	82%	76%
5c.	My manager assigns work to people in my workgroup based on their skills and expertise	70%	65%

The concepts of workplace diversity and inclusion encompass physical and cultural differences among employees, recognition of differences in working styles and approaches as well as involvement and empowerment, where the inherent worth and dignity of all people are treated as paramount. A total of 11 questions focused on diversity and inclusion in People Matter.

Across Premier and Cabinet, the aggregate score for diversity and inclusion was 73%, six percentage points above the sector. Infrastructure NSW held the highest agreement score (97%) while the remaining organisations were in line with the average score with the exception of Parliamentary Counsel's Office (66% agreement).

At the cluster level, a majority of diversity and inclusion questions returned relatively high levels of agreement (ie. above 72%). A significant majority agreed that diversity and inclusion in the workplace can contribute to better business outcomes (93%) and over three quarters (79%) agreed the organisation respects individual differences and that they were able to speak up and share a different view (76%).

Comparatively lower levels of agreement were related to senior managers supporting the career advancement of women (61%) and employees having the support they require to optimise their contribution at work (63%).

Perceptions of diversity and inclusion were strongly positive amongst those in policy roles (81%) but notably less positive amongst those in service delivery roles. All remaining job roles were in line with the average score for the cluster.

Positive perceptions were also recorded by employees who identified themselves as LGBTI (78%) or those who speak a language other than English at home (75%). Employees with longer tenure (particularly between 10 and 20 years), were less positive. This was consistent with observations across the sector. Managers of other managers reported higher levels of agreement across some items, but for the most part, all levels of seniority shared a similar sentiment.

KEY INFLUENCERS

Analysis revealed that employees across the cluster explicitly link their experiences of diversity and inclusion with their opinions about their direct manager. All the top six questions which most strongly correlated with the answers to the diversity and inclusion questions were regarding direct manager behaviours such as communication and decisions, being open and honest and treating employees with dignity and respect. This was not an uncommon finding within other clusters across the sector.

CLUSTER COMPARISON

GUIDE TO THIS REPORT

i ANONYMITY RULES

Responses from individual employees are confidential and strict rules are in place to safeguard privacy at every stage of the survey process.

There is no way of tracing individuals in reports or through the de-identified survey data. There are limits on the size of workgroups that can be reported (10 or more employees) and responses from demographic groups (30 or more employees). Where people work in small teams, the results are merged with larger business units and results are not available. Where this happens an 'r' is shown in reports.

i HOW TO READ THIS REPORT

The majority of questions have a 5-point answer scale. In reports, the Strongly Agree and Agree scores are combined to create an agreement (or positive) score which is shown as a rounded percentage.

Previous surveys had a 4-point answer scale, which means that comparisons are limited for this year only. Some scales, such as those used for the Engagement Index, are unchanged.

i HOW THE DRIVERS AND INFLUENCERS ARE DERIVED

ORC International employs SPSS software to fully interrogate the results and perform appropriate calculations. Our statisticians need a minimum of **30 responses** from a team to perform the analysis to determine the top influences of engagement, leadership and other key question groups.

Statistical techniques applied for this analysis include **Factor Analysis** which identifies patterns in data and allows the statistician to assess whether the attitude questions are measuring the same underlying theme or characteristic.

Regression Analysis then involves building a statistical model based on research that employee engagement is affected by various elements of the workplace such as line manager, learning & development, reward and recognition, job role, etc. This analysis assigns importance weights to the attributes that have been measured. It relies on certain assumptions, one of which is that the variables used in the model should, by definition, not be strongly related to each other. The outcome of these techniques is a list of questions which we can say have the highest association with the engagement index, or more simply, are the most significant influencers of employee engagement

i ROUNDING

Results are presented as whole numbers for ease of reading, with rounding performed at the last stage of the calculation for maximum accuracy.

Values from .00 to .49 are rounded down, whereas values from .50 to .99 are rounded up. Therefore, in some instances the data will not add up to 100%. Example below:

	Strongly Agree	Agree	Neither	Disagree	Strongly Disagree	Total
NUMBER OF RESPONSES	151	166	176	96	24	613
PERCENTAGE	24.63%	27.08%	28.71%	15.66%	3.92%	100%
ROUNDED PERCENTAGE	25%	27%	29%	16%	4%	101%
