A

QUESTIONS ARE GROUPED INTO TOPICS IN THIS REPORT.

This page compares the aggregate or individual scores for key topics. The individual questions in each group are listed in the All Questions section.

The Employee Engagement index is weighted. It cannot be compared to the other scores which are the average of the % agreement results (strongly agree and agree scores).

Response Rate: some entities exceed 100% where responses were greater than the employee headcount. This is thought to be primarily due to employees selecting the wrong work location in the survey

TAKING ACTION

WHAT'S NEXT?

Sector employees have given their feedback and these results show where actions and improvements are required.

Research has shown that a key reason why employees can become disengaged is if they are asked their opinion and then no action takes place as a result.

of employees replied favourably to:

'I believe action will be taken on the results from this survey by my organisation.'

KEY DRIVERS OF ENGAGEMENT

Employee Engagement scores at different levels are shown in earlier and following pages.

These results show the issues that are the most significant influencers of employee engagement in the workplace at this level.

The questions are ranked in order of influence. In prioritising areas for action, it is common to focus on items with a low agreement score but higher in the ranked list of drivers, as they have higher impact. Variation of drivers within the organisation and business priorities should be considered.

If Engagement scores are high, other scores are often high as well.

GUIDE TO THIS REPORT

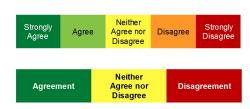

SURVEY TIME FRAME

This report contains results from the 2018 People Matter Employee Survey which was open from 1 June to 2 July 2018.

HOW TO READ THIS REPORT

The majority of questions have a 5-point answer scale. The Strongly Agree and Agree scores are combined to create an agreement (or positive) score which is shown as a rounded percentage.

PRIVACY

Responses from individual employees are confidential and strict rules are in place to safeguard privacy at every stage of the survey process.

There is no way of tracing individuals in reports or through the de-identified survey data. There are limits on the size of work teams that can be reported (10 or more employees) and responses from demographic groups (30 or more employees).

Where people work in small teams, the results are merged with larger business units and results are not available. Where this happens an 'r' is shown in reports.

ROUNDING

Results are presented as whole numbers for ease of reading, with rounding performed at the last stage of the calculation for maximum accuracy.

Values from .00 to .49 are rounded down, whereas values from .50 to .99 are rounded up. Therefore, in some instances the data will not add up to 100%.

MORE DETAILS ABOUT THE SURVEY AND ITS METHODOLOGY

See the Main Findings report on the Public Service Commission web site.
