Program information sessions

Each year we hold an information session to showcase the NSW Government Graduate Program to potential candidates.

These sessions are an opportunity to learn how with one choice, you can have endless opportunities! You will hear about what it's like to work in the NSW public sector from some public sector leaders and gain insights from some of our current graduates about their experience in the program.

2022 program information session

Watch the recording of our virtual information session for the 2022 NSW Government Graduate Program.
