What is the Size of the NSW Public Sector Workforce?

- The average number of full-time equivalent (FTE) employees in the NSW public sector during the year was 310,528.
- The reported number of people (headcount) who were working in the NSW public sector at June was 378,645.
- The NSW Public Sector represented 10.6% of the NSW labour force.
- The Health and Education sectors represented approximately 60% (186,375 FTE) of all NSW public sector employees during the year.

How has the public sector workforce grown over the past year?

In the year to June 2008:
- The NSW public sector workforce increased by: 1.8% (headcount at June).
- The number of NSW employed persons increased by 2.2% during the same period.

Where have the changes occurred?

- In 2008 the ‘Social Security and Welfare’ sector grew by 6.7% FTE employees, the highest out of any sector.
- Major changes occurred across policy sectors due to restructuring rather than actual growth:
  - Housing and Community Amenities sector decreased by 13%
  - Recreation and Culture sector and the Fuel and Energy sectors increased by 17% and 10% respectively.
  - These changes are a result of the Department of Natural Resources (Housing and Community Amenities) being disbanded and its divisions being merged predominately into the Department of Environment and Climate Change (Recreation and Culture) and Department of Water and Energy (Fuel and Energy).
- The Health and Education sectors employees made up 29% and 31% of the public sector at June 2003 respectively compared to 30% and 31% at June 2008.

How have Staffing Levels changed over recent years?

Figure 1 below displays the annual percentage change in size of the NSW public sector workforce and NSW Employed Persons since 2003.
What is the age profile of public sector employees?

- The NSW public sector workforce is older than the total employed workforce in NSW. In 2008 the median age of a NSW Public sector employee was 44; 5 years older than the median age for all NSW employed persons.
- The largest age group was the 45-54 age-bracket that made up 31% of the sector.
- The proportion of employees aged 55 and over was 19%; compared to 18% in 2007.
- 24.2% of employees were under 35 years of age.
