

People Matter

NSW Public Sector Employee Survey 2022

Report Interpretation & Dashboard Tutorial

20 October 2022

10:00am - 12:00pm

NSW Public Service Commission & Big Village

Introduction

- Acknowledgement of Country
- Introduction to Big Village/PSC staff

Agenda

1. Housekeeping
2. Report interpretation
3. Dashboard tutorial
4. Next steps

1

Housekeeping

Housekeeping and Q & A

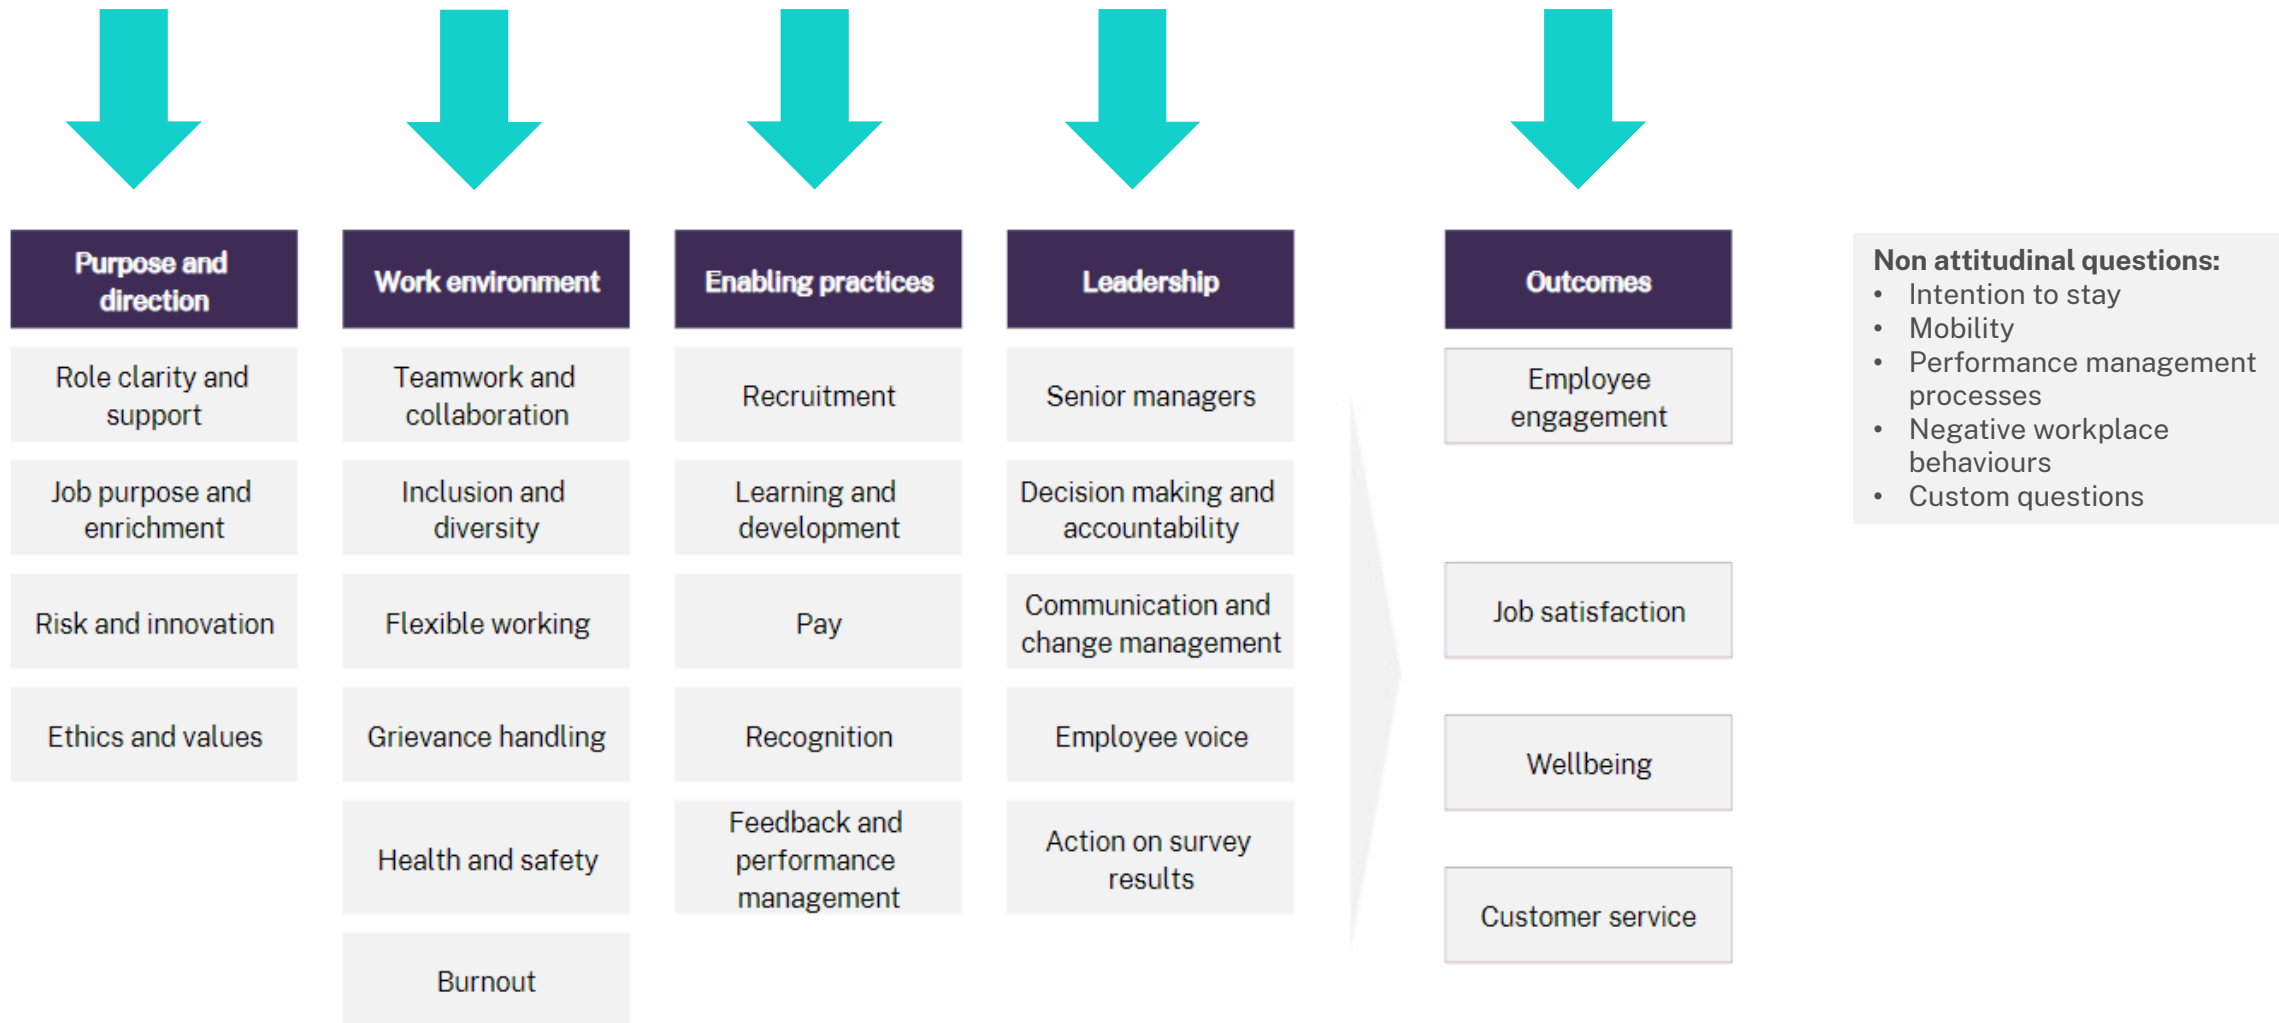

- Please mute your microphone
- The session will be recorded and the link will be shared with you within the next week
- There will also be a dashboard guide document which will be distributed
- Please type your questions into the chat
- We will cover some questions at the end of the section if they aren't already covered, and there will be time for any additional questions with via Q&A at the end of the session

2

Report interpretation

PMES 2022 model

PMES methodology

% Favourable score

- Most responses are grouped into % favourable, % neutral, and % unfavourable.

Difference score

PDF

- Difference scores are shown where there is a valid comparison (e.g. to 2020 results, to cluster results).

Dashboard

- Heat maps cells are colour coded according to the difference scores between unit's scores and the parent unit's scores from the range of dark red to dark blue.

Rounding

- Results are presented as whole numbers (or, sometimes, to one decimal place) for ease of reading.

| | 2022 score | 2021 score | Difference score |
|-----------------------|------------|------------|------------------|
| Actual scores | 66.4% | 64.8% | -1.6% |
| Rounded scores | 66% | 65% | -2% |

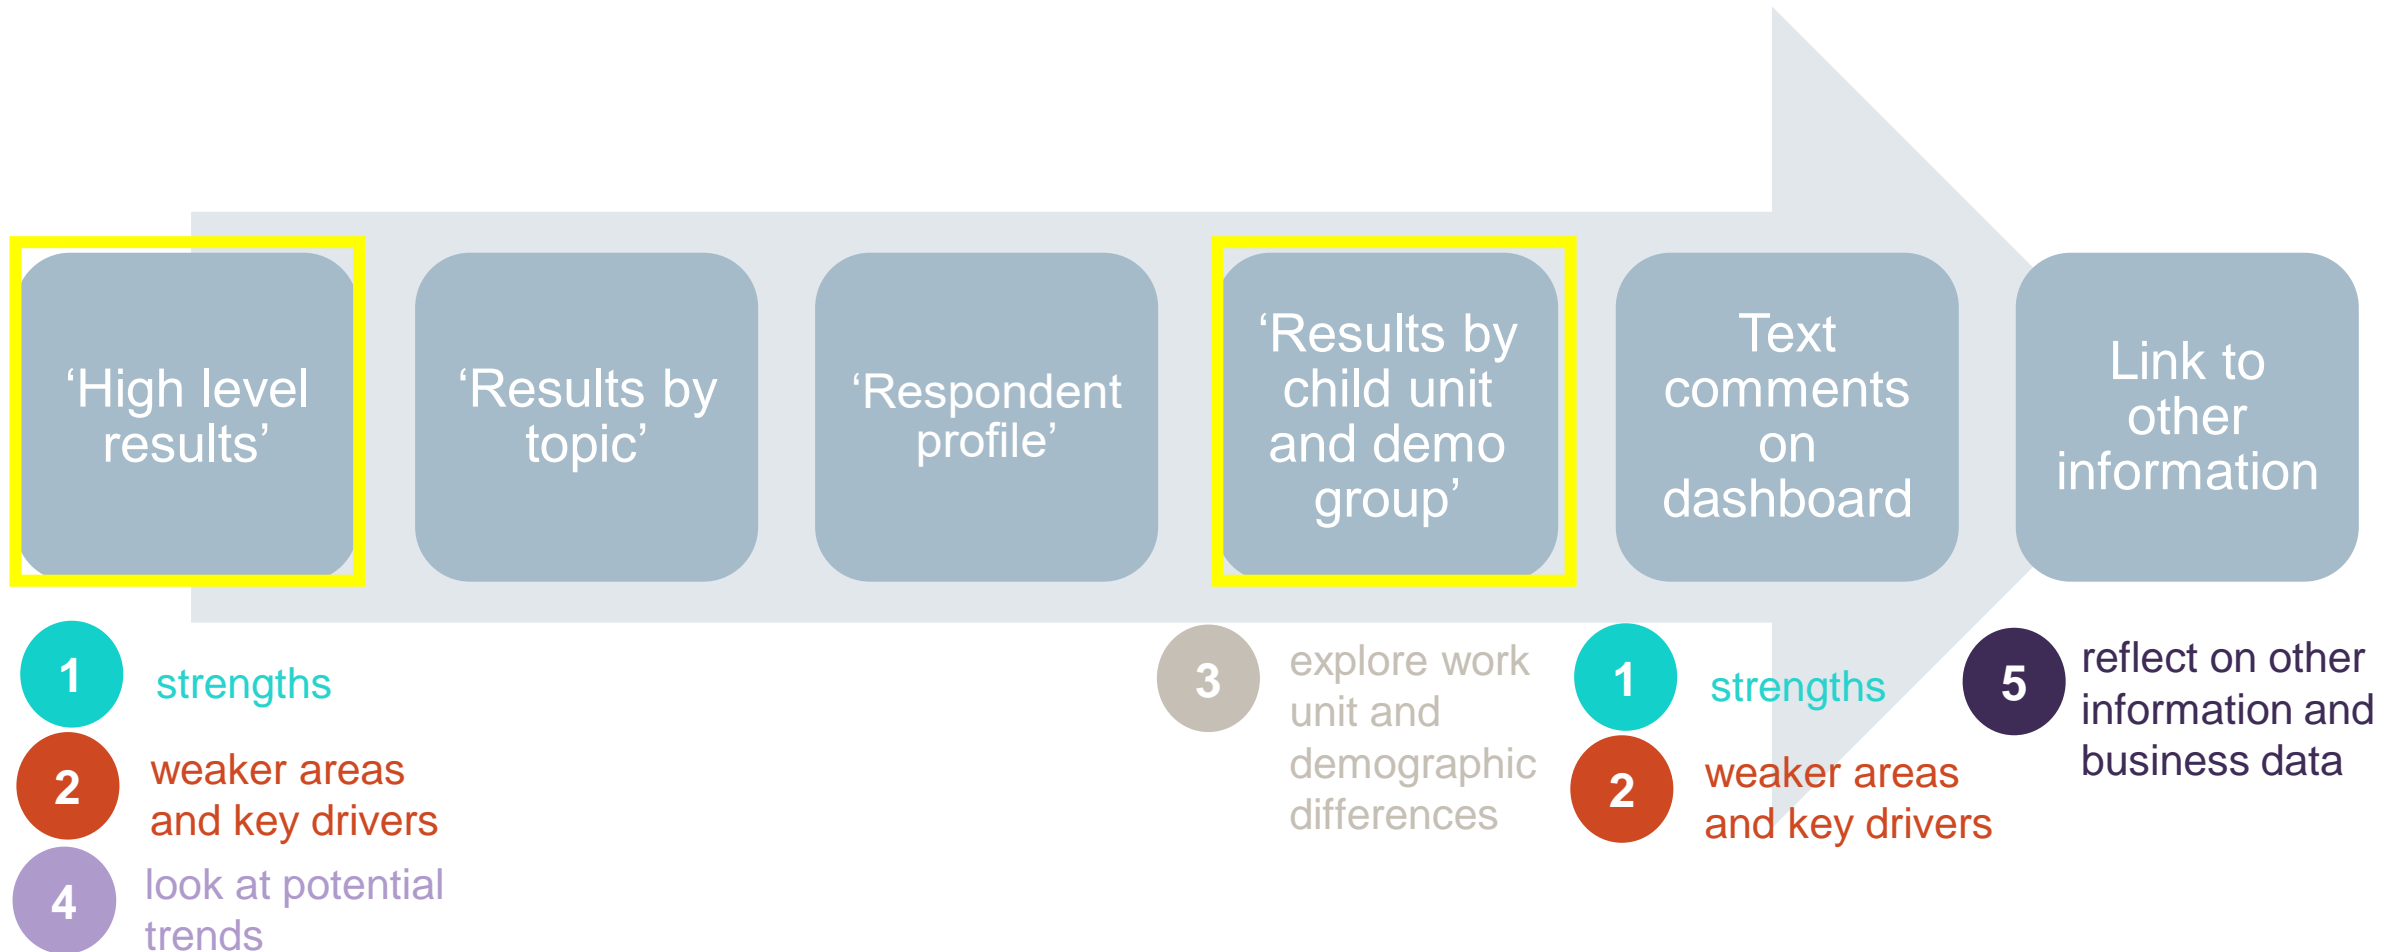

Key driver analysis

- The key drivers of employee engagement are the survey questions most strongly correlated with engagement in a team or organisation.

| Key drivers | | | |
|---|--|-------------------|---------|
| Topic | Key driver questions | 2021 % favourable | Action |
| Health and safety / Inclusion and diversity | I feel that I belong in my organisation | 68% | Improve |
| Role clarity and support | I get the support I need to do my job well | 64% | Improve |

Report and dashboard

Burnout

People Matter

Burnout (disagree)

Work environment

Burnout is typically characterised by ongoing feelings of:

- energy depletion / exhaustion
- negativity or cynicism about one's job
- reduced professional effectiveness.

Note on interpretation:

This question is negatively worded. It differs in interpretation from other questions in this survey, because disagreement is considered a positive response.

The score provided for the burnout question indicates the % favourable responses (i.e. 'strongly disagree' and 'disagree' responses).

The favourable score (blue bar) shows the % of respondents that did not feel burned out by their work.

The unfavourable score (red bar) shows the % of respondents that did feel burned out by their work.

Difference from (percentage point)

r = below privacy cut-off

Dashboard tutorial

Getting started

Types of dashboards in 2022

- Results Dashboard
- Comments Dashboard

Dashboard terminology

- Widgets
- Exporting
- Filters
 - Hierarchy
 - Demographic
 - Advanced

Notable changes from 2021

Comments dashboard

- New question added to comments dashboard (there are now two pages that display comments)
- Comments code frame refined to provide more accurate topics and reduced the proportion of non-themed comments
- Added filters of comments by engagement score and burnout
- The process for exporting from widgets has slightly changed from 2021

Results dashboard

- Page added for key drivers of burnout
- As per all 2022 reporting, some topics have been reaggreated from 2021 in favour of a 'like for like' comparison with 2022. Hence, you may see topic scores in the 2022 dashboard that do not match the 2021 dashboard
